

ADVANCED NUTRIENT AND YIELD ENHANCEMENT TECHNOLOGY

NuTex™ EDA is a micronutrient-based fertilizer catalyst for all liquid nutrient solutions. NuTex EDA offers versatility across both foliar-applied nutrient sprays and soil-applied starter and in-season applications. With long-term compatibility and low use rates, NuTex EDA provides optimal return on investment for all crops.

While relatively new to the U.S. market, our value-added solutions have been used successfully in Europe for nearly two decades to give crops the winning edge. In fact, we are the market leader in Europe for value-added nutritionals and have been for the past 15 years. You can be confident that Sipcam Agro products have been tested and proven under real-world conditions by agronomists who demand results.

NUTEX EDA OVERVIEW

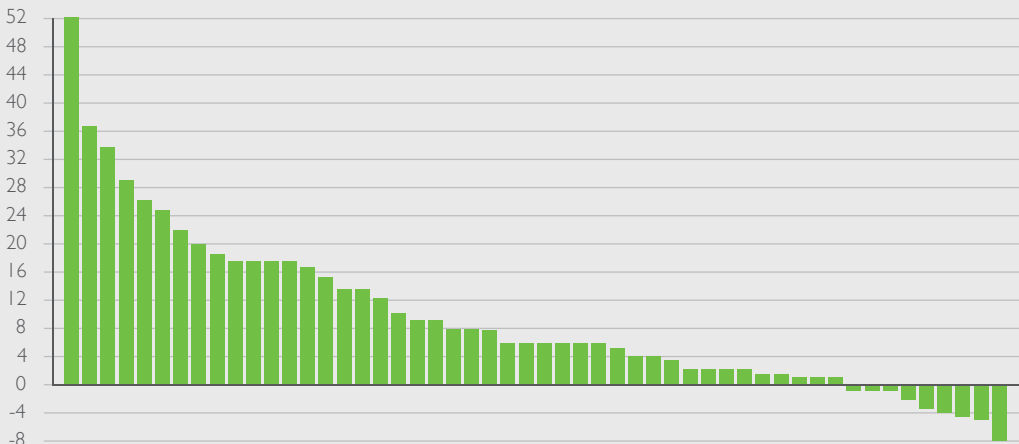

- » Supports plant nutrient uptake efficiency for better root growth and function
- » Enhances and supports microbial populations in the planting zone when used with starter fertilizers
- » Optimizes soil conditions for greater seed germination and root growth
- » Superior tank-mix partner with all fertilizers and plant protection products
- » Excellent ROI

WHY IS NUTEX EDA THE SUPERIOR CHOICE FOR NUTRITION?

Ten years of independent research and field trials have proven NuTex EDA to provide, on average, over 9 bushels per acre increase in corn yields. With an 80% winning trial record across multiple states, soils, crops and applications, NuTex EDA is a proven and economical addition to all liquid fertilizer applications.

AVERAGE 9.6 BUSHEL INCREASE WITH NUTEX EDA

CORN - REPLICATED PLOT YIELD RESULTS
GROWER STANDARD PROGRAM VS. GROWER STANDARD + 8 OZ. NUTEX EDA

51 REPLICATED TRIALS IN OH, MN, TN, NC, WI, IA, NE, ND

NUTEX EDA RATES (fl. oz./A)

ROW CROPS, FRUITS & VEGGIES,
TREES, VINES, BERRIES

Starter Fertilizers 6–8 oz.
Pop-up, Banded, 2x2, In-Furrow

In Season Nitrogen 8–10 oz.
Side Dress, Y-Drop, Broadcast, Fertigated

Foliar Sprays 6–8 oz.
NPK, Micronutrients, Plant Protection

PROVEN TO INCREASE NUTRIENT UPTAKE AND EFFICIENCY

Over 1,000 randomized and replicated research trials with leading university and third-party researchers show NuTex EDA increases nutrient uptake and efficiency.

NUTRIENT	% EFFICIENCY IMPROVEMENT
Nitrogen (N)	10–20%
Phosphorus (P)	12–22%
Potassium (K)	15–22%
Ca & Mg	20–40%
Zn & Mn	20–50%
Boron (B)	15–22%

FEATURES & BENEFITS

- » Supports plant nutrient uptake efficiency for better root growth and function
- » Increases plant nutrient assimilation throughout the plant
- » High-activity performance with low dosage
- » Enhances and supports microbial populations in the planting zone when used with starter fertilizers
- » Improves abiotic stress tolerance
